

### Campbell Road civil and tunnel site - Out of hours deliveries

Work is underway at the Campbell Road civil and tunnelling site to prepare for tunnelling to start next year. Part of this work requires the delivery of oversized construction equipment and materials. Due to the size and shape of the equipment and materials the project is not permitted to transport them on the road network during the day. As such they can only be delivered at night.

#### What we're doing:

Delivery of oversized construction equipment and materials to the Campbell Road Site. Deliveries will include large excavators, pilling (drilling) rigs, cranes and steel construction materials including pile casings and reinforcement.

All deliveries will be transported by truck with access to the site via a gate on Campbell Road/Street. A small mobile crane called a franna may be used to unload some deliveries at night. See map overleaf for details.

Oversize deliveries will occur between **6.00pm - 7.00am Monday to Friday (inclusive)**. All other deliveries will occur during standard construction hours from 7am - 6pm Monday to Friday and 8am to 6pm on Saturday.

#### How this affects you

Some work associated with these deliveries may be noisy. The Project is committed to mitigating construction impacts from this work by:

- Planning delivery routes to minimise the need for reversing
- Turning off equipment when not in use
- Instructing workers to keep noise to a minimum.

The timing and route of oversized deliveries are determined in consultation with New South Wales Police and as such are subject to change.

#### When

From November 2018 to April 2019

#### Hours of operation

6.00pm - 7.00am Monday to Friday

#### Where

Campbell Road Civil and Tunnelling Site.

Access via the gate on Campbell Road/Street

#### What

Out of hours deliveries of oversized construction equipment and materials
