

Night work and road closures on Burrows Road, St Peters and Euston Road, Alexandria

Work is underway to construct a temporary diversion road to replace a section of the current roadway on Burrows Road, St Peters. This temporary diversion road is required for the construction of a new bridge over the Alexandria Canal that will connect to Bourke Road. This work needs to occur at night to limit the impact on day time traffic and for the safety of workers, motorists, pedestrians and cyclists.

Night work will also be carried out on Euston Road, Alexandria to install Ausgrid conduits near the intersection of Campbell Road. This work will involve trenching of the footpath, installation of Ausgrid conduits, backfill and reinstatement of the footpath.

The work locations are shown on the map provided overleaf.

Timing and scope of works

Burrows Road diversion road work

This work will continue **until mid - February 2018**.

Key dates and sequence of work are as follows:

- **Monday 15 January** – Commencement of diversion work within current site boundary.
- **Thursday 18 January** - Concrete barriers will be placed along Burrows Road and will remain in place until the diversion road opens in mid - February. A pedestrian crossing on Burrows Road will also be constructed during the night shift. Burrows Road will be closed from 9pm to 5am. (prior notification N330 was sent on Thursday 11 January)
- **Monday 22 January** - Concrete barriers will be switched to the southern side of the road. Campbell Road will be closed between Euston Road and Burrows Road from 9pm – 5am.

This diversion road will be in place until the end of May 2018. Access to properties will be maintained. Notifications will be provided to advise of further changes as work progresses.

Equipment used during the work will include line marking machine, mobile crane, trucks, demolition saw, generator, lighting towers, construction vehicles and traffic management.

Euston Road night work

Night work will take place on **Monday 22 January** and **Tuesday 23 January** from **7pm to 5am**. This work will be conducted at night when traffic volumes are lower for the safety for workers, motorists, cyclists and pedestrians.

Equipment used during this work will include an excavator, power tools, lighting towers, bogie, tool truck, saw, traffic control, and light vehicles will be used to complete the work.
