

31 October 2016

Night Works - Excavation of temporary tunnel access

Work is underway on WestConnex which involves widening and extending the M4 and M5 and joining them to create a free-flowing motorway network.

As part of the project, the New M5 will duplicate the existing M5 corridor, doubling vehicle capacity and easing congestion between St Peters and Beverly Hills. It will include twin tunnels, an upgrade of the King Georges Road Interchange and a new interchange at St Peters. For more information, visit westconnex.com.au/newm5.

Ground excavation within the Arncliffe construction site is currently underway in preparation for the start of tunnelling. From **7 November 2016** work will continue outside of standard construction hours (Mon-Fri, 7am-6pm and Sat, 8am-1pm) for approximately four months. A map showing the work location is provided overleaf.

The work will be undertaken 24 hours per day, Monday to Sunday. There will be no work on public holidays.

Every effort will be made to minimise any noise and light spill associated with this work, including:

- Installing noise walls and/ or double stacked shipping containers along the Marsh Street site boundary.
- Turning off equipment and vehicles when not in use.
- Using non-tonal reversing beepers on all machinery.
- Directing noise generating equipment and lights away from residential properties.

Work activities

Night work will involve:

- Excavating a decline and shaft to support the construction of the New M5 tunnels
- Installing steel beams for structural support of the decline
- Concreting the decline and the shaft
- Installing ground support for the decline
- Stockpiling spoil within the site compound
- Delivering plant and equipment to site

Plant and equipment to be used during this works include, trucks, construction vehicles, rock hammers, hand tools, excavators, lighting towers, cranes, generators, compactors, ventilation fans, compressors and pumps.

Minimising community impact

All possible measures will be taken to minimise noise and light spill and as a result we expect the impact on the community to be minimal.

If you have any questions about this work, please call toll free **1800 660 248 (24 hours)** and ask to speak to a member of the New M5 community engagement team. You can also subscribe to receive email updates at westconnex.com.au/subscribe.
