

Bexley

Welcome to our construction update for Bexley as part of the WestConnex New M5 project. Updates will be distributed monthly to keep you informed of upcoming activities in your area.

Construction is now underway at the New M5 Bexley sites. Since July 2016, substantial progress has been made to establish the sites, constructing internal access roads and gates, car parks and temporary site buildings, constructing concrete slabs for a spoil shed and surveying to monitor water quality, noise and vibration levels.

Underground power cabling installation is being carried out on local roads in Campsie, Clenton Park and Kingsgrove to supply power to the Bexley Road north and south construction sites and is expected to be completed by the end of the year. Work to permanently restore the surface of footpaths, roads, driveways and replant trees will be undertaken in early 2017.

Work underway at Bexley North construction site, October 2016

Upcoming activities

Work being carried out in November includes:

- further work to install temporary noise walls and hoarding at the Bexley Road north and south construction sites
- constructing an acoustic shed at the Bexley Road north site in order to reduce noise from tunnelling activity and spoil removal
- piling work to stabilise the ground for tunnel shaft excavation at the Bexley Road south construction site
- continued concrete pours at the Bexley Road south construction site to establish a surface for a spoil storage shed
- excavating tunnel shafts at the Bexley Road north construction site to provide access to the New M5 mainline tunnel for machinery and spoil removal.

Plant and equipment used during these works include trucks, construction vehicles, piling rigs, hand tools, lighting towers, generators, excavation and boring equipment, cranes, compactors, compressors and pumps. Every effort will be made to minimise the impact of work on nearby residents and businesses.

Community Information Session

A community information session will be held on **19 November 2016 at 30 Garema Circuit, Kingsgrove from 10am to 1pm**. This session has been organised for residents and stakeholders to meet the project team, obtain information about the project and the construction methods used, as well as provide feedback. This session will also include a presentation at 10am on the noise wall design options near Glamis Street, Armitree Street and Rosebank Avenue.

Work hours

New M5 work will generally be carried out during standard construction hours **between 7am and 6pm Monday to Friday and 8am and 1pm on Saturday**. There will be no work on Sunday or public holidays unless notified otherwise.

Some activities may be undertaken outside of standard construction hours including monitoring by security personnel and workers accessing construction sites. These activities are generally inaudible.

Some night work may be required throughout November. Nearby residents will be notified in advance.

Temporary traffic changes

Temporary traffic changes will be required to safely complete some activities, including road and lane closures, footpath closures and detours, reduced speed limits and temporary removal of street parking. Traffic control and signage will be in place to guide motorists, pedestrians and cyclists through any changed traffic conditions.

For more information

If you have any questions about this work, please call toll free **1800 660 248** and ask to speak to a member of the New M5 community engagement team. You can also subscribe to receive email updates at westconnex.com.au/subscribe.
