

28 October 2016

Service relocations – North Strathfield and Concord

Further to our notification on 14 October 2016, work is continuing to relocate water and sewer mains in and around the Concord Road construction sites.

From **Wednesday, 2 November 2016**, some night work is required to prepare the relocated water and sewer mains to connect into the existing system. A map showing the location of the work is provided overleaf.

This work will be undertaken **between 9.00 pm and 5.00 am** and is expected to take one night to complete, weather permitting.

The work will include:

- excavating in the Concord Road construction site
- identifying underground services and utilities
- connecting the relocated sewer and water mains to the existing services.

Equipment used will include diggers, vacuum trucks, concrete cutters, jackhammers, excavation and boring equipment, water pump, and lighting towers.

Traffic control and pedestrian management will be in place at each work location to ensure the safety of motorists, residents and workers. If you travel along the work route, please allow extra travel time and follow the signage and direction of traffic controllers.

There may be some noise associated with this work, however every effort will be made to minimise the impact of work, including by using non-tonal reversing beepers on all machinery, turning off equipment and vehicles when not in use and, where possible, directing noisy equipment away from residences. Water services will be maintained throughout the work.

If you have a complaint or enquiry about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email info@M4East.com.au.

Notification reference: N066e

ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
