

4 January 2017

Service relocations – North Strathfield and Concord

Further to our notification on 11 November 2016, work is continuing to relocate water and sewer mains in and around the Concord Road construction sites.

From **Saturday, 7 January 2017**, further work will be undertaken to ensure the relocated water and sewer mains are ready to be connected into the existing system.

This work will be take place between **7.00 am and 6.00 pm Monday to Friday and 8.00 am to 1.00 pm on Saturday**. If any nightwork is required to complete this work, you will be notified separately closer to date of the nightwork. A map showing the location of the work is provided overleaf.

This work is expected to take **five days to complete**, weather permitting, and will include:

- excavating the road and footpath
- identifying services and utilities
- grouting the sewer line
- installing a valve
- finalising the new connection.

Equipment used will include diggers, concrete trucks, lighting towers, vacuum trucks, concrete cutters, jackhammers, excavation and compactors.

Traffic control and pedestrian management will be in place at each work location to ensure the safety of motorists, residents and workers. If you travel along the work route, please allow extra travel time and follow the signage and direction of traffic controllers.

There may be some noise associated with this work, however every effort will be made to minimise the impact of work, including by using non-tonal reversing beepers on all machinery, turning off equipment and vehicles when not in use and, where possible, directing noisy equipment away from residences. Water services will be maintained throughout the work.

If you have a complaint or enquiry about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email info@M4East.com.au.

ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
