Utility work – Haberfield

Work is underway on WestConnex which involves widening and extending the M4 and M5 and joining them to create a free-flowing motorway network.

The M4 East will extend the existing M4 from Homebush to Haberfield via underground twin tunnels, each 5.5 kilometres in length and among the widest in the southern hemisphere. They will allow for three lanes of traffic in each direction, saving travel time for motorists and taking traffic off local roads. For more information, visit westconnex.com.au/M4East.

From **Monday, 24 September 2016** utilities investigations and signage installation work will commence along Ramsay Street, Ash Lane, Northcote Street, Parramatta Road, Martin Street and Wolseley Street in Haberfield. A map showing the location of the work is provided overleaf.

The majority of this work will be undertaken **between 7.00 am and 6.00 pm Monday to Friday and 8.00 am and 1.00 pm Saturday**. To ensure the safety of workers and motorists, some work will need to take place **between 9.00 pm and 6.00 am Sunday to Friday**, however high noise activities will only be carried out up to three nights per week, but for no more than two consecutive nights at each location. Residents will be updated as work approaches their property.

This work will take approximately **eight weeks to complete** and will involve:

- installing signage
- utility and pavement investigation work
- installing water, sewer and power services
- installing stormwater drainage.

Equipment used during the work will include excavators, vacuum trucks, concrete saws, core drills, chainsaws, cranes, trucks, compactors, road line markers, graders, asphalt laying plant, small tools, hand tools and lighting equipment.

Traffic control and pedestrian management will be in place to ensure the safety of motorists, residents and workers. Access to properties will be maintained. If you travel along the work route, please allow extra travel time and follow the signage and direction of traffic controllers.

There will be some noise associated with this work, however every effort will be made to minimise the impact of work, including using non-tonal reversing beepers on all machinery, turning off equipment and vehicles when not in use and, where possible, directing noisy equipment away from residences. All sites will also be restored to their previous condition.

If you have an enquiry or complaint about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email info@M4East.com.au. Notification N125A

ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
