

Night work update – M4 Motorway, Concord

Further to our notification dated 25 November 2016 (N132a), night work will continue on the M4 Motorway between Sydney Street, North Strathfield and Parramatta Road, Concord to prepare for the construction of the Concord Road Interchange.

This night work will commence from **Sunday 19 February** for a period of 2 nights over a 5 day period, weather permitting. Due to high traffic volumes on the M4 Motorway, this work will take place **between 10.00 pm and 5.00 am** to reduce impacts on road users and ensure the safety of workers and motorists.

This work will include:

- unbolting/moving concrete barriers.

There will be some noise associated with this work, however every effort will be made to minimise the impact of work, including by using low-tonal reversing beepers on machinery during night works, turning off equipment and vehicles when not in use, directing noisy equipment away from residences where possible, and undertaking regular noise monitoring to ensure noise levels are within the approved threshold.

Equipment list

Equipment used will include pick and carry cranes, light vehicles and trucks, semi-trailers, lighting towers, and hand tools.

Traffic changes

The following traffic changes will be required to facilitate this work:

- Single lane closures on the M4 Motorway in both directions between Sydney Street, North Strathfield and Parramatta Road, Concord.

Traffic control, detour signage and pedestrian management will be in place during the work to ensure the safety of motorists, residents and workers. If you travel along the work route, please allow extra travel time and follow the signage and the direction of traffic controllers.

If you have a complaint or enquiry about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email info@M4East.com.au. Notification reference: N132d

ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
