

Tunnelling update - Haberfield and Ashfield

Tunnelling and associated activities are still underway in both directions from the Northcote Street construction site.

In accordance with the conditions set out by the project's Environmental Protection Licence, tunnelling activities including excavation will occur 24 hours per day, seven days per week.

What we're doing

Tunnelling and related construction activities will continue near your property in April and May 2018. Tunnel excavation is complete with the exception of two ventilation tunnels and the M4-M5 Link connection tunnels.

Other activities currently being completed from the Northcote tunnel site include drainage installation, paving and the Mechanical and Electrical (M&E) fit out. These activities are not expected to be high impact. A map showing the progress and current work underway is provided overleaf.

How this affects you

Each individual's experience of tunnelling may vary due to a range of local conditions and variables. Vibration and noise levels experienced depend on ground conditions, building types, existing background noise levels and the quality of your property (older buildings were built to different standards than newer buildings). It also depends on how far away you are from the tunnel. In some instances, you may experience the following:

- Ground borne noise – this is created when vibration from tunnel excavation travels through the ground and causes a building's flat surface to vibrate, occasionally creating an audible 'rumbling' noise.
- Vibration – at times you may feel some vibration, however the predicted levels are not high enough to cause damage to property.

Once the tunnelling (roadheader and benching work) is complete, you are unlikely to hear or feel any vibration from vehicles using the motorway.

If you have an enquiry or complaint about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email info@M4East.com.

When

Ongoing

Hours of operation

24 hours per day, seven days per week.
