

16 January 2017

Road restoration work - Franklyn and Alexandra Street, Concord

Work is underway on WestConnex which involves widening and extending the M4 and M5 and joining them to create a free-flowing motorway network.

The M4 East will extend the existing M4 from Homebush to Haberfield via underground twin tunnels, each 5.5 kilometres in length and among the widest in the southern hemisphere. They will allow for three lanes of traffic in each direction, saving travel time for motorists and taking traffic off local roads. For more information, visit westconnex.com.au/M4East.

On **Friday 20 January 2017**, work will commence to restore the road surface at the intersection of Franklyn and Alexandra Street, Concord. This work will take place **between 7.00 am and 6.00 pm** and is expected to take day one day to complete, weather permitting. A map of the work area is provided overleaf.

This work will involve:

- establishing a temporary worksite
- asphaltting the road pavement
- restoring the area to its original condition.

Equipment used will include a paving machine, road profiler, vibratory roller and trucks.

Access to driveways may be impacted. Residents will be contacted individually to discuss access requirements during the work.

Traffic control and pedestrian management will be in place during the work to ensure the safety of motorists, residents and workers. If you travel along the work route, please allow extra travel time and follow the direction of traffic controllers and signage.

There will be some noise associated with this work, however every effort will be made to keep it to a minimum including by using non-tonal reversing beepers on all machinery, turning off equipment and vehicles when not in use and, where possible, directing noisy equipment away from residences.

If you have an enquiry or complaint about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email info@M4East.com.au.

Notification reference: N169

ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
