

## Construction of sewer manhole, Haberfield

Work is underway on WestConnex which involves widening and extending the M4 and M5 and joining them to create a free-flowing motorway network.

The M4 East will extend the existing M4 from Homebush to Haberfield via underground twin tunnels, each 5.5 kilometres in length and among the widest in the southern hemisphere. They will allow for three lanes of traffic in each direction, saving travel time for motorists and taking traffic off local roads. For more information, visit [westconnex.com.au/M4East](http://westconnex.com.au/M4East).

From **Monday, 13 February 2017**, work will commence to stabilise the ground and install a new sewer manhole. A map showing the location of the work is provided overleaf.

To minimise impact on nearby residents, the work will be undertaken between the following hours:

- **7.00 am – 6.00 pm, Monday to Friday**
- **8.00 am – 1.00 pm, Saturday**

It will take approximately **six weeks** to complete the work, weather and site conditions permitting, with the following work undertaken:

- extending the construction site boundary with temporary fencing
- vertical soil mixing to stabilise the ground
- installation of a sewer manhole
- fauna inspection by a qualified ecologist
- tree clearing and pruning
- mulching and removal of material from site.

Equipment to be used includes excavators, soil mixers, chainsaws, trucks and a mulcher.

There will be some noise associated with this work, however every effort will be made to minimise the impact of work, including the use of low-tonal reversing beepers on machinery during works, turning off equipment and vehicles when not in use, directing noisy equipment away from residences where possible, and undertaking regular noise monitoring to ensure levels are being managed effectively.

If you have an enquiry or complaint about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email [info@M4East.com.au](mailto:info@M4East.com.au).

Notification reference: N172

### ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
