

## Ground water monitor wells - Haberfield

Work is underway on WestConnex which involves widening and extending the M4 and M5 and joining them to create a free-flowing motorway network.

The M4 East will extend the existing M4 from Homebush to Haberfield via underground twin tunnels, each 5.5 kilometres in length and among the widest in the southern hemisphere. They will allow for three lanes of traffic in each direction, saving travel time for motorists and taking traffic off local roads. For more information, visit [westconnex.com.au/M4East](http://westconnex.com.au/M4East).

In order to monitor ground water levels associated with M4 East tunnelling activities, monitoring wells will be installed across the project.

From **Thursday, 27 April 2017**, service investigation will be undertaken within the property of 252 Parramatta Road, Haberfield. This is preparatory work with the installation of monitoring equipment to be undertaken at a later time. Notification will be provided prior to the installation of monitoring equipment.

To minimise any impact to the business, work has been scheduled to take place outside of opening hours, and will be carried out as quickly as possible to minimise the impact to local residents. Work will take place between **6.00 pm and 5.00 am on Thursday, 27 April 2017 and Friday, 28 April 2017**, plus one contingency night.

The work will take two shifts to complete, weather and site conditions permitting, and will include:

- establishing a temporary work site
- carrying out service investigations to confirm the location of existing utility services.

Once installed, the monitoring equipment will remain in place for a minimum of three and a half years. A technician will check the equipment regularly. Following the completion of monitoring activities, the site will be restored to its original condition.

There will be some noise associated with this work, however every effort will be made to minimise the impact of work, including by using non-tonal reversing beepers on machinery, turning off equipment and vehicles when not in use and, where possible, directing noisy equipment away from residences.

If you have an enquiry or complaint about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email [info@M4East.com.au](mailto:info@M4East.com.au).

Notification reference: N200

### ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
