

13 July 2017

Tree clearing – Queen Street, North Strathfield

Work is underway on WestConnex which involves widening and extending the M4 and M5 and joining them to create a free-flowing motorway network.

The M4 East will extend the existing M4 from Homebush to Haberfield via underground twin tunnels, each 5.5 kilometres in length and among the widest in the southern hemisphere. They will allow for three lanes of traffic in each direction, saving travel time for motorists and taking traffic off local roads. For more information, visit westconnex.com.au/M4East.

From **Wednesday, 19 July 2017** three trees will be removed from Queen Street, North Strathfield in order to install conduits and cables for new directional vehicle signage. If the work cannot be completed during this period, it will be rescheduled.

To ensure the safety of workers and motorists, this work will take place **between 7.00 pm and 6.00 am Monday to Friday**. A map of the work area is provided overleaf.

This work will take up to **two nights to complete** and will include:

- establishing a worksite
- setting up traffic control
- removing trees
- stacking branches and logs.

Equipment used during the work will include chainsaws, traffic control, lighting towers, light vehicles, an elevated work platform and trucks.

A temporary lane closure will be required on Parramatta Road (eastbound) and Queen Street (westbound) in order to perform this night work. If you travel along the work route, please follow the direction of traffic controllers and signage.

There will be some noise associated with this work, however every effort will be made to minimise the impact of work, including by using non-tonal reversing beepers on machinery, turning off equipment and vehicles when not in use and, where possible, directing noisy equipment away from residences.

If you have an enquiry or complaint about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email info@M4East.com.au.

Notification reference: N203a

ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
