

Out of Hours Work – Ashfield and Haberfield

Work is underway on WestConnex which involves widening and extending the M4 and M5 and joining them to create a free-flowing motorway network.

The New M4 will extend the existing M4 from Homebush to Haberfield via underground twin tunnels, each 5.5 kilometres in length and among the widest in the southern hemisphere. They will allow for three lanes of traffic in each direction, saving travel time for motorists and taking traffic off local roads. For more information, visit westconnex.com.au/M4East.

From **Monday, 31 July 2017**, the New M4 Project will continue service location and investigation work and pavement construction. A map showing the location of the work is provided overleaf.

Work has been scheduled to take place between **7.00 am and 6.00 pm Monday to Friday** and **8.00 am and 1.00 pm on Saturday**, where possible. However, to ensure the safety of workers and motorists, and in the cases of road occupancy restrictions, some night work is required. Night work will take place between **9.00 pm and 5.00 am Sunday to Friday**. In some instances, preparatory work may commence at 6.00 pm. Residents will be notified separately when work is scheduled to commence at 6.00 pm.

This work will take approximately **three months to complete** and will include:

- installing and modifying pavements
- installing traffic barriers, signage and line marking
- clearing and removing vegetation
- utility work including investigation, installing and modifying communications, electrical, drainage and water services
- temporary remediation work, prior to permanent restoration completed in collaboration with Inner West Council.

Equipment used throughout the work will include excavators, vacuum trucks, concrete saws, compactor plates, trucks, hand tools and lighting equipment.

Traffic control and pedestrian management will be in place to ensure the safety of motorists, residents and workers.

There will be some noise associated with this work, however every effort will be made to minimise the impact of work, including by using non-tonal reversing beepers on all machinery, turning off equipment and vehicles when not in use and, where possible, directing noisy equipment away from residences.

In an effort to minimise additional impacts experienced as a result of unexpected construction delays, we will be providing residents with weekly email updates about upcoming out-of-hours work in the area. If you would like to receive updates about out-of-hours work near your property, please email our team at info@m4east.com.au and ask to subscribe to the out-of-hours work mailing list.

Notification reference: N236

ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
