

Parramatta Road Vent Facility, Haberfield

From **Monday, 4 September 2017** work will commence on the structure of the Parramatta Road Vent Facility (PRVF), which is located within the Wattle Street Construction Site. A map of the work area is provided overleaf.

Timing and work hours

To minimise the impact to residents, work has been scheduled to take place between **7.00 am and 6.00 pm Monday to Friday and 8.00 am and 1.00 pm on Saturday**.

In some instances, low-noise work (such as steel fixing or work using hand tools) will be completed between **6.00 pm and 7.00 am Monday to Friday and 1.00 pm to 5.00 pm on Saturday**. Residents will be notified if work is required outside of these hours.

The PRVF is scheduled to be completed in late 2018.

Work activities

The work within the excavation shaft (up to 45m deep) will include:

- detailed excavation, including excavating drainage lines
- installation of civil retaining structures and utility services
- construction of the PRVF structure, including installation of vertical walls, roof and columns.

The work within the PRVF compound will include:

- construction of associated buildings, including sub-stations
- installation of architectural finishes (pending final design)
- internal fit out of the structure
- associated landscaping, construction of the perimeter walls and pavement work.

The two tower cranes will be used throughout the construction of the PRVF. The cranes are ~60 metres high and will be used to lift building materials, plant and equipment during standard construction hours.

Equipment used will include excavators, trucks, mobile cranes, concrete trucks, concrete saws, hand tools, generator, and lighting equipment.

Minimising impact

There will be some noise and vibration associated with this work during standard construction hours. Every effort will be made to minimise the impact of work, including turning off equipment and vehicles when not in use, and directing noisy equipment away from residences wherever possible. Low noise work will generally be completed within the excavation shaft, or at the surface where activities are modelled to have a minimal impact on surrounding residents.

If you have an enquiry or complaint about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email info@M4East.com.au.

Notification reference: N243

ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
