

## Parramatta Road Vent Facility, Haberfield

From **Wednesday, 3 January 2018** work will continue to build the structure of the Parramatta Road Vent Facility (PRVF), which is located within the Wattle Street Construction Site. Due to anticipated hot weather throughout January, some concrete pours will need to commence outside of standard construction hours when the weather is cooler. This will ensure the concrete remains at a lower temperature. A map of the work area is provided overleaf.

### Timing and work hours

Concrete pours have been scheduled to take place between **5.00 am and 6.00 pm Monday to Friday** and will take up to **four weeks**.

Construction of the PRVF is scheduled to be completed in late 2018.

### Work activities

The work will include:

- setting up concrete pumps
- pouring concrete.

Equipment used will include concrete trucks, concrete pumps and hand tools.

The two tower cranes will continue to only be used during standard construction hours of 7.00 am and 6.00 pm.

### Minimising impact

There will be some noise associated with this work during standard construction hours. Every effort will be made to minimise the impact of work, including turning off equipment and vehicles when not in use, and directing noisy equipment away from residences wherever possible.

In an effort to minimise additional impacts experienced as a result of unexpected construction delays, we provide residents with weekly email updates about upcoming out-of-hours work in the area. If you would like to receive updates about out-of-hours work near your property, please email our team at [info@m4east.com.au](mailto:info@m4east.com.au) and ask to subscribe to the mailing list.

If you have an enquiry or complaint about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email [info@M4East.com.au](mailto:info@M4East.com.au).
