

## Service investigations – Waratah Street, Haberfield

From **Thursday, 12 October 2017**, the New M4 Project will commence service location and investigation work to help inform the design of proposed traffic signage on Waratah Street, Haberfield. A map showing the location of the work is provided overleaf.

Community consultation for the proposed signage closed on Tuesday, 19 September 2017. Following this, all feedback received was collated and provided to the relevant government authorities for consideration. New signage options are currently being investigated which will ensure motorists are informed while reducing their footprint in local communities. This service investigation work is required to finalise the design of the proposed signage. Community notification will be provided once the design is finalised.

## Timing and work hours

Where possible, work has been scheduled to take place **between 7.00 am and 6.00 pm Monday to Friday and 8.00 am and 1.00 pm on Saturday**. Work requiring road or lane closures will occur **between 9.00 pm and 5.00 am Sunday to Friday**.

We will re-notify you if we are unable to complete the work during this period or if there are any major changes.

## Work activities

This work will take up to **eight shifts** to complete, weather permitting, and will involve:

- setting up traffic control and establishing temporary work sites
- locating services using a non-destructive digging method (NDD)
- temporary restoration work, prior to permanent restoration in consultation with Inner West Council.

Equipment used throughout the work will include vacuum trucks, a concrete saw, compactor plates, small tipper trucks and hand tools.

Please note that for this work to be safely undertaken, parking will be temporarily limited around the work sites.

## Minimising impacts

There will be some noise associated with this work and every effort will be made to minimise this including using non-tonal reversing beepers on machinery, turning off equipment and vehicles when not in use and, where possible, directing noisy equipment away from residences.

## Traffic changes

Traffic control and pedestrian management will be in place to ensure the safety of motorists, residents and workers. If you travel along the route, please allow extra travel time and follow the direction of traffic controllers and signage.

In an effort to minimise additional impacts experienced as a result of unexpected construction delays, we will be providing residents with weekly email updates about upcoming out-of-hours work in the area. If you would like to receive updates about out-of-hours work near your property, please email our team at [info@m4east.com.au](mailto:info@m4east.com.au) and ask to subscribe to the out-of-hours work mailing list.
