

## Toll gantry fit out - M4 Motorway, Homebush

Further to notification N298, from Monday, 12 March 2018, work will continue to install toll gantry infrastructure on the M4 Motorway westbound off-ramp and eastbound on-ramp at Homebush. This work will require ramp closures at night.

Testing of the toll gantry will commence shortly after installation. Toll tags may beep when driving under the gantry, however, no tolls will be charged. A notification will be distributed to the community before toll collection starts.

A map showing the location of the work is provided overleaf

### What we're doing

This work will take up to four weeks to complete, weather permitting, and will involve:

- installation of tolling equipment onto the gantry structure.

Equipment used during the work will include delivery trucks, truck mounted cranes, elevated work platforms, electric drills, lighting towers and hand tools.

### How this affects you

During this work, full closures of the M4 Motorway westbound off-ramp and eastbound on-ramp at Homebush will be required. Specific information regarding these closures will be communicated via comprehensive Variable Message Sign (VMS) and [livetraffic.com](http://livetraffic.com).

Traffic control and pedestrian management will be in place to ensure the safety of motorists, residents and workers. If you travel along the route, please allow extra travel time and follow the signage and direction of traffic controllers.

There will be some noise associated with this work and every effort will be made to minimise this by using non-tonal reversing beepers on all machinery at night, turning off equipment and vehicles when not in use and where possible, directing noisy equipment away from residences. All sites will also be restored to their previous condition.

If you have an enquiry or complaint about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email [info@M4East.com.au](mailto:info@M4East.com.au).
