## Utility work – North Strathfield and Concord

Further to our notification on 26 April 2017 (N163b), work will continue to relocate a number of services, including gas, electricity and water, in the Concord and North Strathfield area.

To ensure the safety of workers and motorists, and to reduce impacts on the road network, the work will take place **between 8.00pm and 5.00 am Sunday to Saturday**. A map showing the extended locations of the original work location is provided overleaf.

The work is expected to take **up to 3 nights**, weather and site conditions permitting, and will include:

- installing temporary worksites and fencing
- excavating the road and the footpath
- locating and installing underground services and utilities
- removing service poles
- back-filing and temporarily reinstating the work area - permanent reinstatement will follow
- use of the Queen Street, North Strathfield laydown area for materials and equipment

Equipment will include excavators, vacuum trucks, concrete cutters, jackhammers, excavation and boring equipment, lighting towers, tip trucks and light vehicles

**During the work, the pedestrian footpath on the northern side of Parramatta road will be closed. Detour signage will be in place. A map showing the pedestrian detour is provided overleaf. Residential access will be maintained. Please allow extra travel time and follow the signage.**

There will be some noise associated with this work, however every effort will be made to minimise the impact of work, including by using non-tonal reversing beepers on machinery, turning off equipment and vehicles when not in use and, where possible, directing noisy equipment away from residences.

If you have an enquiry or complaint about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email [info@M4East.com.au](mailto:info@M4East.com.au).

### ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
