

Drainage work – Queen Street and M4 Motorway, North Strathfield

Further to our notification on 24 March 2017 (N186), work will continue on Queen Street and the M4 Motorway near North Strathfield to install new drainage associated with the Concord Road Interchange work. A map showing the location of the work is provided overleaf.

To ensure the safety of workers and motorists, and to reduce impacts on the road network, this work will take place between 6pm and 5am, from **Friday 2nd June, 2017**. If the work cannot be completed during this period, it will be rescheduled.

This work is expected to take up to **three nights** to complete, weather and site conditions permitting and will involve:

- installing temporary traffic barriers and signage
- clearing and removing vegetation
- potholing for investigation and location of existing services
- installing storm water drainage
- installing and modifying pavements for associated drainage work
- temporary remediation work, prior to permanent restoration.

Equipment used during the work will include excavators, bogie trucks, concrete trucks, compactors, hand tools and lighting equipment.

Traffic control will be in place to ensure the safety of motorists, residents and workers. If you travel along the work route, please allow extra travel time and follow the signage and direction of traffic controllers.

There will be some noise associated with this work, however every effort will be made to minimise the impact of work, including using non-tonal reversing beepers on all machinery at night, turning off equipment and vehicles when not in use and, where possible, directing noisy equipment away from residences. All sites will also be restored to their previous condition.

If you have an enquiry or complaint about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email info@M4East.com.au.
