

Air Quality Monitoring Station Installation Work – Corner of Ramsay Street and Martin Street, Haberfield

The project requires the construction of a number of buildings to support the operation of the motorway, including an Air Quality Monitoring (AQM) station. A map of the location and work area is provided overleaf.

Timing and work hours

Work is scheduled to commence from **Friday, 13 October 2017** and is expected to take **up to two months to complete**, weather permitting.

Work will be completed between **7.00 am and 6.00 pm from Monday to Friday and 8.00 am to 1.00 pm Saturday**. If the work cannot be completed during this period, it will be rescheduled and the community will be notified.

Work activities include:

- using a vacuum truck to locate existing services
- excavation for Air Quality Monitoring slab and fence posts
- installation of slab, conduits, fence posts and fence
- installation of temporary power supply
- installation and commissioning of Air Quality Monitoring station.

Equipment used during the work will include excavators, trucks, concrete trucks, compactors and light vehicles.

Minimising impact

There will be some noise associated with this work and every effort will be made to minimise this, including by using non-tonal reversing beepers on machinery, turning off equipment and vehicles when not in use and, where possible, directing noisy equipment away from residences.

Traffic changes

Traffic control and pedestrian management will be in place as required to ensure the safety of motorists, residents and workers.

If you have an enquiry or complaint about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email info@M4East.com.au.

Notification: N262

ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
