

Permanent noise wall construction and landscaping - Dobroyd Parade, Haberfield

From Wednesday, 31 October 2018, work will continue to construct the Dobroyd Parade noise wall. A map highlighting the location of the structure is provided overleaf.

Following community consultation in April-May 2018, the M4 East Project has changed some plant species which will be installed in this location. Changes to species are included in the table overleaf.

Due to design changes to address utility services, this work is expected to take a further month to complete, weather permitting. Residents will be updated about the progress of the work.

What we're doing

Remaining work will involve:

- auger piling (a quieter form of piling) for the installation of the remaining support posts;
- installation of remaining Hebel panels and commencement of painting of these panels;
- restoration of footpaths, driveways and road surfaces;
- installing remaining landscaping.

Equipment used for this work will include an auger piling machine, excavator, cranes, tipper trucks, light vehicles and hand tools.

How this affects you

There will be some noise associated with this work. Every effort will be made to minimise the impact of work, including managing the staging of work, turning off equipment and vehicles when not in use, and directing noisy equipment away from residences wherever possible.

If you have an enquiry or complaint about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email info@M4East.com.au.
