

Road restoration - Edward Street, Concord

From Tuesday 23 October 2018, Edward Street, Concord will be re-asphalted to restore the road surface. The work is expected to take three shifts to complete, weather depending. A map showing the location of the work is provided overleaf.

What we're doing

The work will involve:

- Milling of current road surface (removing the top layer)
- Asphaltting

Equipment used will include; sweeper, profiler, float-trailer, light vehicles, smooth drum roller, multi wheel roller, bob cat, asphalt paver.

How this affects you

Whilst asphaltting works are underway, vehicle access along Edward Street will be restricted for short periods. Residents are asked to move their vehicles prior to works commencing on Tuesday 23 October. Milling and asphaltting is expected to take three days to complete, by the end of the third day the road will re-open to vehicles. Pedestrian access to properties will be maintained at all times. Driveway access will be restricted for short periods while works are underway. Traffic control will be in place to safely escort pedestrians.

If you have special needs regarding vehicle access please contact the community team so intermittent daytime access can be arranged.

Asphaltting works are typically loud and accompanied by a strong odour. Every effort will be made to minimise this impact including by turning off equipment and vehicles when not in use and directing noisy equipment away from residences where possible.

If you have an enquiry or complaint about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email info@M4East.com.au.
