

## Road Resurfacing - Martin Street, Haberfield

Following the completion of the majority of works around the Wattle Street Interchange, on Wednesday, 8 May 2019 work will commence to resurface a section of Martin Street, Haberfield between Ramsay Street and Wattle Street. A map showing the location of the work is provided overleaf.

Please note that no parking will be available in the work area during this work.

Work is expected to take up to 9 days to complete, weather dependent. If the work cannot be completed during this time, work will be rescheduled and you will be notified.

### What we're doing

Remaining activities will involve:

- Removing the current surface of the road that have been damaged
- Laying asphalt and compressing the surface with a roller
- Sealing the new road surface.

Equipment used during the work will include millers, excavators, an asphaltting machine, vibrating roller, line markers and trucks.

### How this affects you

Access to Martin Street between Ramsay Street and Wattle Street will remain open during this time, however parking on the park side will not be available. Traffic control will be in place to ensure access to the street is maintained, however please expect a short delay while the team move any plant and equipment.

There will be some noise and odour associated with this work. Every effort will be made to minimise this by turning off equipment and vehicles when not in use and where possible, directing equipment away from residences.
