

## Night work and road closures on Gardeners Road, Kent Road and Bourke Road/ Street, Mascot

Night work continue on Gardeners Road, Kent Road and Bourke Road/Street to install, relocate and upgrade power, communications and gas services. Some of this work will be carried out at night, outside of peak traffic volume times, under traffic management for the safety of workers, motorists, pedestrians and cyclists.

### What we're doing

Night work will continue intermittently between **Monday 17 September and Friday 28 September** from **9pm to 5am**. Work will not occur in the same location for more than one night at a time when in close proximity to residential properties.

Work is continuing to install underground power and communication lines to facilitate the future removal of overhead power lines along Gardeners Road and Bourke Road within the Project boundary. New gas mains will also be installed.

A map showing the locations of the work is provided overleaf.

The work will involve trenching with an excavator, removing ground material, identifying the services and their depth in the ground, installing new utilities and then reinstating the road and footpaths.

Equipment used during the work will include lighting towers, hand tools, vacuum truck, excavator, road saws, bucket trucks, generators, traffic management and construction vehicles.

### Traffic changes

**A full road closure on Gardeners Road, Kent Road and Bourke Road/Street will be in place for the duration of each night shift.** Access to driveways located on Gardeners Road will be maintained for residents and businesses at all times. Residents and businesses will be required to provide their address to traffic control to be permitted through the road closure to their property.

Traffic control, signage, detours and reduced speed limits will be in place to assist local residents and road users to navigate through the changes. Traffic control on Gardeners Road will be setup away from residential properties where possible to minimise light and noise disruption.

### Minimising impact on residents

Every effort will be made to minimise noise and light spill associated with this work by scheduling noisy work to take place early in the night. Where possible, noise blankets will be installed around the work site, the location of work changed each night, traffic control arranged away from residential properties, equipment and vehicles turned off when not in use and non-tonal reversing beepers used on all machinery.

### When

Monday 17 September to Friday 28 September.

Please note all work is weather permitting

### Hours of operation

Between 9pm and 5am
