

Night work in Kingsgrove & Bexley North

Night work will be undertaken in sections of the road verge, on the M5 East between Bexley Road and King Georges Road to progress construction of the New M5 project in Kingsgrove and Bexley North.

What we're doing

Work will be carried out over four nights during the existing M5 East maintenance shutdown period from Sunday 22 July to Wednesday 25 July 2018 (weather permitting). These works will be undertaken outside of normal construction hours for the safety of workers and motorists. A map showing the location of the work is provided overleaf.

Activities for the July shutdown will include:

- North and south tunnel portal works including excavation work, piling, concreting and shotcreting
- Barrier movement, line marking, removal of old line marking
- Installation of crash barriers at the site compound located on the Westbound M5 off ramp at King Georges Road Beverly Hills
- Boreholing and tree removal to facilitate tolling gantry installation at the off ramp and on ramps located at King Georges Road Beverly Hills
- Potholing along southern shared user path Bexley North to facilitate tolling gantry installation
- Service investigation in Arinya Street to facilitate tolling gantry installation
- Signage removal and Installation of new signage
- CCTV inspection of stormwater drain
- Construction of a new gate off the M5 (westbound) to facilitate access and egress into the site compound
- Road sweeping

Equipment used will include excavators, lighting towers, concrete cutters, road sweepers, vacuum trucks, generators, cranes, elevated work platforms, oxy cutters, concrete agitators, hand drills, line markers and line removers, elevated work platforms, compressors, lighting towers, piling rigs, drill rigs and pumps as well as other construction vehicles.

How this affects you

Some of this work will be noisy. Noise monitoring will be conducted for all work undertaken outside of standard construction hours. Any dust generating activities will be watered down to minimise dust. Traffic control be in place to assist road users
