

## Night work and traffic changes on Princes Highway, Campbell Street (east), Campbell Street (west) and Crown Street St Peters

Night work will take place to asphalt sections of road pavement at the Princes Highway and Campbell Street intersection. This will involve major traffic changes on Princes Highway, Campbell Street (east), Campbell Street (west) and Crown Street.

### Campbell Street traffic changes - progress update

Work is underway to finalise the new road and footpath along the southern side of Campbell Street from Crown Street, across Princes Highway, to Brown Street. This work was originally scheduled to be complete by mid-October but has been delayed due to utility service installation work in the area. **The new road and footpath is currently scheduled to open to traffic in mid-November and the site compounds will then move to the northern side of Campbell Street (west).** Residents will be notified at least 5 days in advance of this switch taking place.

**Please note:** The road closures on Church Street and Florence Street at the intersection of Campbell Street (west), and the temporary access road on St Peters Street will remain in place until the new road and footpath is complete. We thank you for your ongoing patience.

### What we're doing

Five night work shifts are required to asphalt and prepare the road surface at the Princes Highway and Campbell Street intersection ahead of the relocation of traffic to the southern side of Campbell Street. Due to the necessary safety and traffic approvals required for lane closures on Princes Highway, asphalt work at the intersection must take place at night outside of peak traffic volume times.

- **Mon 8 Oct, Tues 9 Oct and Wed 10 Oct from 8pm to 5am (3 nights)**  
Asphalting work will take place in the Princes Highway southbound lanes near the intersection of Campbell Street and on a section of road on Campbell Street (east)
- **Mon 15 Oct and Tues 16 Oct from 8pm to 5am (2 nights)**  
Asphalting work will take place in the Princes Highway northbound lanes near the intersection of Campbell Street and on a section of road on Campbell Street (west)

Parking restrictions will be in place in some areas on Princes Highway between Campbell Street and May Street to facilitate the necessary traffic set up from 7am Monday ahead of both lots of work.

### When

Mon 8 October 8pm-5am  
Tues 9 October 8pm-5am  
Wed 10 October 8pm-5am

Mon 15 October 8pm-5am  
Tues 16 October 8pm-5am  
(All dates weather permitting)

- Local access only on Campbell Street (west) via the May Street and Bedwin Road intersection for St Peters Street, Brown Street, Hutchinson Street, Lackey Street and Applebee Street residents
- Road closure on Campbell Street (east) between Princes Highway and Barwon Park Road; no access between Campbell Street (west) and Campbell Street (east)
- Road closure on Crown Street at the intersection of Campbell Street; two-way traffic permitted on Crown Street under traffic control. Access to Crown Street via Barwon Park Road only

## How this affects you

Equipment used includes an asphalt paver, roller, construction trucks, hand tools, light vehicles and lighting towers. Residents may feel vibration from the compaction and asphaltting equipment, which may cause items in your home to rattle. If you have pictures on the wall that are not secured, you may wish to take them down as a precautionary measure. Please note vibration monitoring will be carried out and all equipment will operate within approved limits. This work is also expected to generate high noise. Every effort will be made to minimise noise associated with this work by turning off equipment and vehicles when not in use and directing noise generating equipment away from residential properties where possible.

## Traffic changes on Princes Hwy, Campbell St (east), Campbell St (west) and Crown Street

Asphaltting work in Princes Highway southbound lanes

**Mon 8 Oct 8pm to 5am**

**Tues 9 Oct 8pm to 5am**

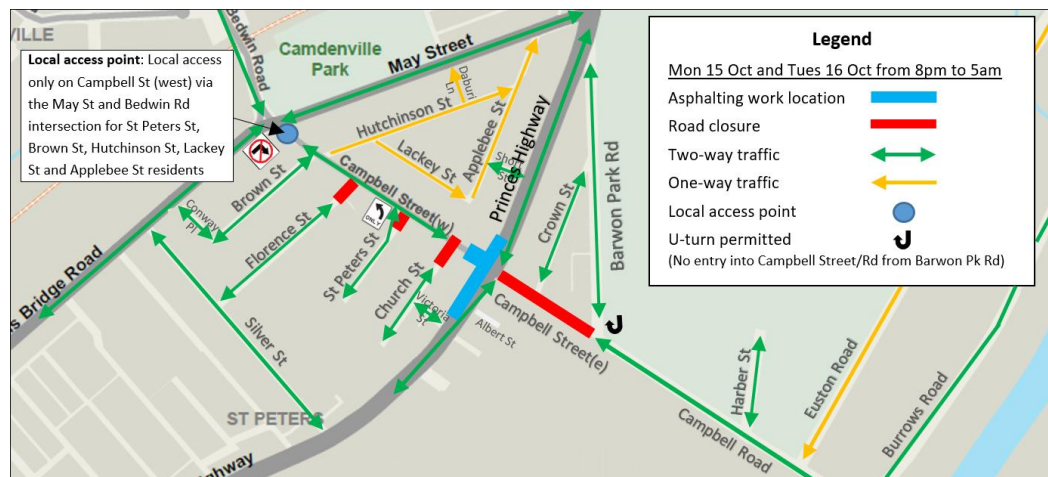

**Wed 10 Oct 8pm to 5am**

Asphaltting work in Princes Highway northbound lanes

**Mon 15 Oct 8pm to 5am**

**Tues 16 Oct 8pm to 5am**

The site compounds on May Street and along the southern side of Campbell Street will be used intermittently throughout the work for storage of materials and vehicle parking during both lots of work.
