

Night work to install utilities on Princes Highway near the intersection of Campbell Street

Night work is required in various locations along Princes Highway near the intersection of Campbell Street on **Wednesday 31 October from 7pm to 5am**.

What we're doing

We will install new power and light poles in various locations along Princes Highway near the intersection of Campbell Street. Please see map overleaf to better explain the locations of this work.

Due to the necessary safety and traffic approvals required for lane closures on Princes Highway, this work must take place at night outside of peak traffic volume times.

Traffic changes

- Two-way traffic will be maintained on Princes Highway
- Pedestrian access will be maintained under the direction of traffic control

How this affects you

Equipment used during this work will include elevated work platforms, crane borer, hand tools, light vehicles, vacuum trucks, construction trucks, compaction equipment, lighting towers and traffic control.

The site compounds on May street and along the southern side of Campbell Street will be used intermittently throughout the work for storage of materials and vehicle parking.

This work is expected to generate some noise from the vacuum trucks. Every effort will be made to minimise noise and light spill associated with this work by turning off equipment and vehicles when not in use and directing noise and light generating equipment away from residential properties where possible.
