

Contingency date added: Weekend or night work and traffic changes on St Peters Street St Peters

Day work is scheduled to take place on St Peters Street to shift traffic from the temporary access road back to the original St Peters Street road pavement on **Saturday 10 November from 8am to 4pm.**

If work to finalise the new road pavement cannot be completed this week due to the predicted wet weather on Wednesday 7 November or in the lead up to Saturday, it will instead take place during one night work shift on **Monday 12 November from 7pm to 5am.**

What we're doing

In connection with work to finalise the new road and footpath along the southern side of Campbell Street from Crown Street, across Princes Highway, to Brown Street, work will be undertaken to shift traffic from the St Peters Street temporary access road back to the original St Peters Street road pavement. This work will involve moving concrete barriers and fencing.

- **Saturday 10 November from 8am to 4pm**
- **Contingency: Monday 12 November from 7pm to 5am**

Work to shift traffic from the temporary access road back to the original St Peters Street road pavement is dependent on asphaltting work being completed within the site compound along the southern side of Campbell Street between Princes Highway and St Peters Street. Three day work shifts are required to complete the asphaltting work, which is currently scheduled take place on Wednesday 7 November, Thursday 8 November and Friday 9 November. However, if these shifts cannot be completed due to wet weather, work to realign the St Peters Street road pavement will not be undertaken on Saturday 10 November as planned. In this instance, the required asphaltting work will take place during day shift on Monday 12 November and a night work shift will take place to realign St Peters Street when the traffic volumes are lower.

Residents will be updated about the confirmed date for this work via the Weekly Update sent via email each Friday. If you would like to subscribe to the Weekly Update, please email info@newm5.com.au.

Traffic changes

A stop/slow traffic setup will be in place on St Peters Street for the duration of this work; access between Campbell Street and St Peters Street will be maintained under the direction of traffic control.

Traffic control will work to facilitate the movement of pedestrians and vehicles between Campbell Street and St Peters Street as quickly as they can during the work. However, please expect some delays while we ensure the area is safe for pedestrians and vehicles access.

Due to the necessary safety and traffic approvals required on St Peters Street, these works must take place over the weekend or at night outside of peak traffic volume times.

Traffic changes on St Peters Street on Saturday 10 November from 8am to 4pm (Contingency: Monday 12 November from 7pm to 5am)
