

Night work and traffic changes at the intersection of May Street, Campbell Street, Unwins Bridge Road and Bedwin Road St Peters

Work is ongoing to install various utility services and remove redundant overhead cables from existing power poles at the intersection. This work will be done at night when traffic volumes are lower for the safety of road users and workers.

1) Night work on Unwins Bridge Road

Night work will take place to install underground Ausgrid electrical conduits across the full width of Unwins Bridge Road, around 100 metres south of the Bedwin Road, May Street and Campbell Street intersection. The work schedule is:

- **Thursday 14 February from 7pm to 5am**
- **Tuesday 19 February from 7pm to 5am**
- **Thursday 21 February from 7pm to 5am** - contingency date if the work cannot be completed in two night-work shifts

2) Night work on May Street

On **Thursday 14 February from 7pm to 5am**, night work will be undertaken on May Street, around 100 metres north of the Campbell Street, Unwins Bridge Road and Bedwin Road intersection, to string an overhead NBN communications cable between two poles. Excavation work will also be carried out in the eastern footpath of May Street to prepare for the installation of a new street light.

On **Thursday 21 February from 7pm to 5am**, the new street light will be installed at the eastern footpath on May Street.

Parking restrictions will apply on May Street from 7am Wednesday 13 February until 5am Friday 15 February, and from 7am Wednesday 20 February until 5am Friday 22 February.

Additional night work at the intersection: On Thursday 21 February from 7pm to 5am, night work will also be carried out to remove redundant overhead power cables from existing power poles in various locations around the intersection. This follows recent utility work to relocate power conduits and overhead cables to an underground supply.

BUILDING OUR FUTURE

Constructed by

Traffic changes - Thursday 14 February, Tuesday 19 February and Thursday 21 February from 7pm to 5am

A stop/slow traffic set up will be in place at the intersection of Bedwin Road, Campbell Street, May Street, Unwins Bridge Road and Bedwin Road under the direction of traffic control. Please expect delays and follow the direction of traffic control personnel and signage.

Pedestrian access around the intersection will be maintained under the direction of traffic control. For safety reasons, pedestrians may be directed to cross the road to the opposite footpath.

How this affects you

Equipment used during the work on Unwins Bridge Road will include a road saw, rock breaker, excavator, vacuum truck, construction vehicles, compaction equipment, lighting towers and traffic control. This work is expected to generate high noise.

Equipment used on May Street and during the removal of overhead power cables will include elevated work platforms, excavators, a demolition saw, vacuum truck, construction vehicles, hand tools, a mobile crane, lighting tower and traffic control. This work is expected to generate some noise.

Every effort will be made to minimise noise and light spill associated with these works by turning off equipment and vehicles when not in use. We will also direct noise and light generating equipment away from residential properties where possible.

The site compounds on May Street and along the southern side of Campbell Street will be used intermittently throughout the work for storage of materials and vehicle parking.
