

## Installation and replacement of portable buildings in the Bexley Compound, Earlwood

The installation and replacement of portable buildings in the Bexley Compound is scheduled from 8am to 6pm on Sunday 3 February 2019 (weather permitting).

### What we're doing

A number of portable buildings will be removed and replaced with buildings that will provide additional use within our Bexley Compound.

Equipment used to complete the works will include crane, elevated work platform, prime movers, trucks and construction vehicles.

### How this affects you

There will be no road closure of Wollie Avenue; however, traffic control will be in place to assist drivers at times of truck entry and exit to and from the compound.

There will be truck movements around the area and some noise associated with this work.

If you have any questions about this work, please call 1800 660 248 (toll free) and ask to speak to a member of the New M5 community engagement team or email [info@newm5.com.au](mailto:info@newm5.com.au).
