

13 February 2017

Night work on Euston Road, Alexandria

Work is underway to establish the New M5 construction site along **Euston Road between Sydney Park Road and Maddox Street**. Further to the notification distributed on 28 December 2016 and part of site establishment work along Euston Road, intermittent night work will be required over **February and March**.

Due to high traffic volumes on Euston Road, certain construction activities need to occur at night to ensure the safety of workers and road users. Construction activities will include:

- Utility investigations to inform design for utility relocations
- Relocation of existing utilities to prepare for the widening of Euston Road
- Installation of concrete barriers along the western side of Euston Road to establish the work site boundary

A map showing the location of the work is provided overleaf.

Timing and work hours

The first period of night work, starting at the roundabout of Sydney Park Road and Euston Road, will be from **Wednesday 22 February to Wednesday 1 March** and is expected to occur intermittently over six different nights, weather permitting.

The second period of night work will be from **Thursday 9 March to Tuesday 14 March** and is expected to occur intermittently over four different nights, weather permitting. The work will be undertaken between **7pm and 5am**. There will be no night work on Sundays. A calendar outlining the approximate dates of work is provided overleaf. Residents will be notified of any significant changes to this calendar.

Equipment for this work include trucks, lighting towers, cranes, tipper trucks, excavator, vacuum truck, concrete saw, plate compactor, light vehicles, generators, power tools and hand tools.

Minimising community impact

Every effort will be made to minimise noise and light spill associated with this work by:

- directly contacting residents before night work is due to start near their property
- implementing noise mitigation equipment such as eco barriers and noise blankets
- scheduling noisy work to take place earlier in the night where possible
- turning off equipment and vehicles when not in use
- using non-tonal reversing beepers on all machinery
- directing noise generating equipment and lights away from residential properties where possible

Traffic changes

Changed traffic conditions will be in place throughout this night time work and will include:

- temporary lane closures at the roundabout located at Sydney Park Road and Euston Road during the first period of night work
- temporary closure of the northbound and southbound median lanes along Euston Road at Maddox Street during the second period of night work. Slow lanes will remain open.
- closure of the kerbside northbound traffic lane on Euston Road as a result of concrete barrier installation

Constructed by

Easing congestion

Creating jobs

Connecting communities

- reduced speed limits
- footpath closures and detours

Traffic control and signage will be in place to assist local residents and road users to navigate through the changes. Access to streets and properties adjoining Euston Road will be maintained.

For more information about the changed traffic conditions during this night work, including maps showing the closure location and detour routes, please visit westconnex.com.au/NewM5. If you have a question about this work, please call **1800 660 248** and ask to speak to a member of the New M5 community engagement team or email info@newm5.com.au. Alternatively, please feel free to visit the New M5 Community Information Centre located at 27 Burrows Road, St Peters. The centre is open Monday to Friday, 9am – 5pm.
