## Night work at Kingsgrove

To continue construction at Kingsgrove, work will be undertaken in sections of the road verge, on the M5 East between Kingsgrove Road and King Georges Road. A map showing the location of the work is provided overleaf.

Due to the high traffic volumes on the M5 East and for the safety of workers, pedestrians and motorists, this work will be carried out over four nights during the existing M5 East maintenance shutdown period from **Sunday 18 June 2017** (weather permitting). The work will be undertaken between **6.00 pm and 5.00 am**.

The work to be carried out includes:

- Removing existing concrete safety barriers from the road verge as well as repositioning and adding new barriers
- Installing safety screen guards along barriers
- Removing noise wall panels south of the motorway
- New line markings to set up lanes for site access
- Continuing work on underground utility services
- Installing bollards near site access gates.

From **Sunday 25<sup>th</sup> June 2017**, sheet piling work will be undertaken in the eastbound lane of the motorway to support the construction of the tunnel portal structure. Sheet piling activities will take one week to complete from commencement (weather permitting) and will be undertaken at night due to traffic volumes on the M5 East motorway. There will be some temporary traffic changes to ensure the work zone is safe. Changed traffic conditions will include closure of the slow lane in an eastbound direction.

## Construction Impacts

Equipment to be used during this the work will include trucks, sheet piling rig, excavators, lighting towers, concrete cutters, generators, cranes, hand drills, compressors and pumps.

Every effort will be made to reduce the impact to residents and businesses, as well as pedestrians and cyclists while work takes place. Noise monitoring will be conducted for any work that takes place outside of standard hours. Any dust generating activities will be watered down to minimise dust.

Traffic control and signage will be in place to assist road users through these changed traffic conditions.

If you have any complaints or enquiries about this work, please call **1800 660 248** (24 hours) and ask to speak to a member of the New M5 community engagement team.

## ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.

Notification No. 229
