

Day and night work at Sydney Park Roundabout, Alexandria

Work has recently been completed to install a new water main the length of Euston Road from Campbell Road to Maddox Street, in order to make improvements to the Sydney Water network. **The next step is commissioning the new water service.** As this work needs to occur in conjunction with a planned Sydney Water service outage, it is being scheduled to occur at night to minimise impact to water users.

What we're doing

The new main needs to be commissioned at three pits located at Sydney Park Roundabout. Work will be conducted over the following days:

- **Saturday 16 June day work** Preparation work (8am - 6pm). Traffic control will be in place overnight
- **Sunday 17 June day work** Preparation work, contingency (8am - 6pm)
- **Monday 18 June night work** Connection work (9pm - 6am)
- **Tuesday 19 June night work** Connection work, contingency night (9pm - 6am)

All work is weather permitting and is scheduled in accordance with Sydney Water requirements. A map showing the location of work and traffic changes in place during the work, is provided overleaf.

Two of the pits are located within the current work site on Euston Road in soft ground, and one pit is located on Huntley Street in the road (expected to create the most noise). A map showing the location of work and traffic changes in place during the work, is provided overleaf.

The work will involve the removal of asphalt, excavation of ground, cutting existing Sydney Water assets, making a connection to the newly installed main, and backfilling the ground.

Sydney Water will directly notify properties that are expected to be impacted by the temporary water outage associated with this work.

Traffic changes

The **eastbound traffic lane on Huntley Street between Euston Road and Burrows Road will be closed for the duration of work** (Saturday 16 June - Wednesday 20 June). Vehicles will be required to detour via either Maddox Street or Campbell Road. Pedestrians will be directed to the other side of Huntley Street in order to avoid the work area.

Traffic control, signage, detours and reduced speed limits will be in place to assist local residents and road users to navigate around the closure.

When

Saturday 16 June & Sunday 17 June (day work)
Monday 18 June & Tuesday 19 June (night work)

Hours of operation

8am and 6pm (day work)
9pm and 6am (night work)

BUILDING OUR FUTURE

Constructed by

Minimising impact on residents

Equipment used during the work will include lighting towers, hand tools, vacuum truck, excavator, bucket trucks, saw cutter, generators, traffic management and construction vehicles.

The work is expected to create noise. Every effort will be made to further minimise noise and light spill associated with this work by:

- Scheduling noisy work to take place early in the night where possible
- Installing noise blankets around the work site
- Turning off equipment and vehicles when not in use
- Using non-tonal reversing beepers on all machinery
- Directing noise generating equipment and lights away from residential properties where possible
- Residents identified as being highly impacted by noise from this work will be contacted directly by the Project.
