

## New Pedestrian Crossing and Concrete Barriers – Burrows Road, St Peters

A section of Burrows Road between the New M5 Community Centre and Campbell Road, St Peters, will be closed for one night to facilitate the new pedestrian crossing and the installation of concrete barriers. The full road closure is scheduled **between 9pm and 5am on Thursday 18, January 2018**. Parking along work area 1 (see map overleaf) will be taken out and cones will be placed two days prior to works commencing, parking will be reinstated on **Friday 19 January 2018**. Parking along work area 2 will be taken out for a longer duration and further notification will be provided.

This work needs to occur at night to limit the impact on day time traffic and for the safety of workers, motorists, pedestrians and cyclists.

### Timing and scope of works

The work is expected to take only one night with two work areas, weather permitting.

- **Area 1** will involve line marking and concrete pouring to create a new pedestrian crossing on Burrows Road, St Peters.
- **Area 2** will involve the placement of concrete barriers along the worksite side.

Equipment used during the work will include line marking machine, trucks, lighting towers, demo saw, construction vehicles and traffic management.

### Traffic changes

Traffic management will be in place for the duration of this work including traffic control, signage, detours and reduced speed limits. These measures will be in place to assist the local businesses and road users to navigate the closure.

We apologise for any inconvenience this work may cause.

If you would like further information or would like to discuss the location of the site compound, please call 1800 660 248 and ask to speak to a member of the New M5 community engagement team or email [info@newm5.com.au](mailto:info@newm5.com.au).

#### ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.

Notification No:330
