

New M5 – King Georges Road Interchange Upgrade

June 2015

11 June 2015

Reference: 001

Dear Resident

Notification of construction work in your area

WestConnex Delivery Authority (WDA) has awarded Fulton Hogan Construction the contract to upgrade the King Georges Road Interchange at Beverly Hills. The King Georges Road Interchange upgrade will increase capacity on the King Georges Road on and off ramps to the M5 Motorway, relieving one of Sydney's worst bottle necks. Thanks to the Australian Government's concessional loan of up to \$2 billion, construction has been fast-tracked by up to 18 months.

Main compound and site office set up

Work to set up the main construction compound and site office at Allambee Crescent will start from Thursday 11 June 2015. This work will be carried out during standard construction hours, between 7am and 6pm Monday to Friday and 8am to 1pm on Saturdays. The work is expected to take approximately five weeks to complete, weather permitting.

The work includes:

- Installing a 1.8 metre high safety fence around the site compound
- Minor vegetation clearing to allow for site access and site shed installation
- Installing site offices, sheds and amenities
- Installing and connecting services to the site (electrical, communication, water and waste)
- Delivering road construction materials for sealed access roads, parking and hardstands
- Adjusting the Allambee Crescent cul-de-sac to allow for vehicle access into the compound

Main construction compound operation

The compound will be in operation from June 2015 to February 2017 when the project is completed.

The compound will include a King Georges Road Interchange Upgrade project community information centre, temporary offices, sheds, facilities and parking for up to 50 light vehicles, including two spaces for community visitors. Machinery and construction materials will also be stored on site.

Work at the compound will generally be carried out during standard construction hours between 7am and 6pm Monday to Friday and 8am to 1pm on Saturdays. Some work at the compound may need to be undertaken out of hours. Nearby residents will be notified in advance of out of hours work.

Vehicle access to the site compound will be through Allambee Crescent to avoid disruption to traffic on King Georges Road and the M5. Residents may notice an increase in construction traffic on Allambee Crescent, Coo롱gatta Road and Pallamana Parade. Traffic control will be in place to ensure the safety of pedestrians and motorists. Please follow the directions of traffic controllers at all times. The shared path will remain open during and after the establishment of the compound.

Thank you for your patience during this work. Please call the WestConnex information line on 1300 660 248 or email KGRIUcommunity@fultonhogan.com.au if you require further information.
